Email: nbhupendra958@gmail.com
Mobile: +91-9493689379

SKILLS

- Programming Languages:** C++, C, Java, JavaScript, PHP, Python
- Frameworks & Libraries:** React.js, Node.js, HTML5, CSS3
- Databases & Tools:** MySQL, VS Code, XAMPP, Git, GitHub
- Core Subjects:** Data Structures & Algorithms (DSA), Object-Oriented Programming, DBMS
- Soft Skills:** Problem-Solving, Teamwork, Leadership, Adaptability

PROJECTS

Power Supply Feedback Management System | [Link](#) | [Live](#) Apr 2026 - May 2026

- Architected and developed a full-stack feedback management platform for power supply services, enabling efficient complaint registration, tracking, and resolution.
- Leveraged Laravel's MVC framework to build secure authentication, role-based authorization, and scalable backend functionality.
- Created an interactive admin dashboard for monitoring feedback records, managing complaints, and generating actionable insights.
- Utilized MySQL for structured data management, ensuring reliable storage, retrieval, and reporting of feedback information.

Tech Stack: Laravel, PHP, Blade, MySQL, Tailwind CSS, HTML, CSS, JavaScript

Parent Meeting Portal Platform | [Link](#) | [Live](#) Oct 2025 - Dec 2025

- Architected and developed a scalable full-stack application to streamline parent-teacher communication and appointment scheduling with improved workflow efficiency.
- Engineered a responsive, high-performance frontend using React.js and Tailwind CSS, ensuring seamless cross-device accessibility and enhanced user interaction.
- Built robust RESTful APIs with Node.js to manage scheduling workflows, handle requests efficiently, and support smooth real-time data operations.
- Designed and integrated MongoDB for secure, scalable data storage, enabling efficient management of user information and appointment records.

Tech Stack: React.js, Node.js, Tailwind CSS, MongoDB

TRAINING

Logic Building, Programming and Data Structures | [Link](#) | [Live](#) May 2025 - Jun 2025

- Completed hands-on training focused on logic building, programming fundamentals, and data structures through real-world problem-solving, algorithmic thinking, and practical implementation exercises.
- Designed and implemented a hospital appointment management system using circular queue data structure concepts to efficiently handle patient scheduling, doctor availability, and queue rotation.
- Applied queue operations for appointment allocation, deletion, and real-time updates to strengthen practical understanding of core DSA principles and efficient data handling.
- Gained practical experience building responsive, user-centric interfaces and managing structured backend data using HTML, Tailwind CSS, JavaScript, PHP, and MySQL.

CERTIFICATES

- | | |
|--|----------|
| Cloud Computing NPTEL | May 2026 |
| Developing Back-End Apps with Node.js and Express Coursera | Apr 2026 |
| AI Foundations Associate Oracle | Mar 2026 |
| Data Platform Foundations Oracle | Mar 2026 |
| Object Oriented Programming Neocolab | Dec 2025 |
| Computer Communications Specialization Coursera | Nov 2024 |

EXTRA-CURRICULAR ACTIVITIES

- Participated in hackathons and innovation challenges, strengthening team collaboration, problem-solving, and real-time project development skills under tight deadlines. (Oct 2025)
- Practiced coding problems on platforms such as Hacker Rank and Leet Code, improving logical thinking, data structures, and algorithmic problem-solving skills. (Sep 2025)
- Explored new technologies and development tools through self-learning and mini-projects, continuously improving technical proficiency and adaptability.

EDUCATION

- | | |
|---|--|
| Lovely Professional University
Bachelor of Technology - Computer Science and Engineering CGPA: 6.60 | Aug 2023 - Present
Phagwara, Punjab |
| Wisewood's International School
Intermediate Percentage: 78.4% | Jun 2021 - Mar 2023
Vana Pamula, Andhra Pradesh |
| Viswa Bharati English Medium High School
Matriculation Percentage: 100% | Apr 2020 - Mar 2021
Gudivada, Andhra Pradesh |
